

## **Cooperative network**

*of teaching, research and extension  
in basic education schools*

### **WHO WE ARE**

We are a group of cooperative and connected educational institutions that work in an open and democratic network to produce and share knowledge and experiences linked to improving the social quality of free public basic education.

The Cooperative Network for Teaching, Research and Extension in Basic Education Schools - RECEPE-UNIUBE - was created by UNIUBE's Dean of Research, Postgraduate Studies and Extension - PROPEPE, through the Professional Master's Degree Program in Education: Teacher Training for Basic Education / Research Group on Teacher Training, the Right to Learn and Pedagogical Practices - FORDAPP/CNPq.
